

BUILDING AND GROUNDS COMMISSION

The second in a series of articles about Vestry Commissions at St. Martin's.

Did you ever wonder who is responsible for fixing things that break at St. Martin's, beautifying our indoor and outdoor space, replacing light bulbs, painting whatever needs to be painted, arranging for parking lot repaving and a whole lot more? That would be our **Building and Grounds** commission. The work done by members of this committee often goes unnoticed because things are maintained before there are problems. When something does go wrong, such as when the air conditioning pipes leaked in the sacristy, the Building and Grounds committee gets right on it and finds the appropriate people to take care of the problem with the least interruption to the business of the church. The Vestry's Junior Warden, Gary Osborn, is the first responder whenever there is a need. He, along with many wonderful people who assist him in their areas of expertise, see that issues are quickly taken care of. The **Building and Grounds** commission takes on a huge job with much responsibility, but it is very rewarding, to see that St. Martin's, the beautiful place we call our church home is regularly maintained.

If you would like to be a part of this committee to help care for our church, contact the Vestry liaison, Gary Osborn, g.j.osborn@aol.com Reverend Cathy, 229-1111, or any member of the Vestry. (numbers can be found in the directory or on the web site.)
